

City of North Miami Beach, Florida

BUILDING DIVISION

NOTICE TO ALL APPLICANTS

LOW VOLTAGE ALARM SYSTEM

Effective October 1, 2013 uniform basic permit labels for Low Voltage Alarm System will be available for purchase by a qualified contractor to be used for the installation or replacement of a new or existing alarm system (SINGLE FAMILY RESIDENCE, DUPLEX AND TOWNHOUSE **ONLY**) at a cost of \$80.00 per label, per project unit.

Please be advised that permits are still required for commercial work including multi-family building such as, but not limited to, condominiums and apartments. For commercial installations in existing building where renovations or alterations are not being performed (no building permit), a SCHEMATIC DIAGRAM showing fire walls and types of wiring signed by the qualifying agent is required at time of permit application to ensure the integrity of fire resistant rated assemblies.

Thank you.
