~~(C) — **Application of Code Section 415 Limitations**~~

~~Defined contribution plan limits of IRC Section 415(e) and regulations thereunder, and combined plan limits of IRC Section 415(e) and regulations thereunder, are hereby incorporated by reference to the extent that such provisions may apply to this plan.~~

~~If, as a result of this allocation of forfeitures, a reasonable error in estimating a member's compensation or other facts and circumstances to which Regulation 1.415-6(b)(6) shall be applicable, the annual additions under this plan would cause the maximum annual additions to be exceeded for any member, the administrator shall (1) return any employee contributions credited for the "limitation year" to the extent that the return would reduce the excess amount in the member's accounts; (2) hold any "excess amount" remaining after the return of any employee contributions in a "Section 415 suspense account"; (3) use the "Section 415 suspense account" in the next limitation year (and succeeding limitation years if necessary) to reduce employer contributions for that member if that member is covered by the plan as of the end of the limitation year; or (4) reduce employer contributions to the plan for such limitation year by the amount of the "Section 415 suspense account" allocated and reallocated during such "limitation year". For purposes of this section, "excess amount" for any member for a limitation year shall mean the excess, if any, of (1) the annual additions which would be credited to his account under the terms of the plan without regard to the limitations of IRC Section 415 or (2) the maximum annual additions determined pursuant to the previous paragraph.~~

~~For purposes of this section, "Section 415 suspense account" shall mean an unallocated account equal to the sum of "excess amounts" for all members in the plan during the limitation year. The "Section 415 suspense account" shall not share in any earnings or losses of the fund.~~

~~The foregoing shall not apply if Section 415 of the Internal Revenue Code is made inapplicable to this Plan either by statute or regulation.~~

(a) Maximum Pension.

Notwithstanding any provision of this Plan to the contrary, the Annual Pension that is accrued by or paid to a Member shall not exceed the Dollar Limitation set forth below. If the benefit the Member would otherwise accrue in a Limitation Year would produce an Annual Pension in excess of the Dollar Limitation, the benefit shall be limited to a benefit that does not exceed the Dollar Limitation.

(1) Definitions Used in this Section

(A) “Annual Pension” means the benefits received by a Member under this Plan expressed in the form of a straight life annuity. In determining whether benefits payable exceed the Dollar Limitation set forth below, benefits payable in any form other than a straight life annuity shall be adjusted to the larger of:

(i) The annual amount of the straight life annuity (if any) payable to the Member under the plan commencing at the same annuity starting date as the form of benefit payable to the Member; or

(ii) The annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the Member, computed using a 5 percent interest assumption and the applicable mortality table described in §1.417(e)-1(d)(2) for that annuity starting date.

No actuarial adjustment to the benefit shall be made for benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to §417(e)(3) of the Internal Revenue Code and would otherwise satisfy the limitations of this Section, and the amount payable under the form of benefit in any Limitation Year shall not exceed the limits of this Subsection 6.08(a) applicable at the annuity starting date, as increased in subsequent

years pursuant to § 415(d) of the Code. For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

(B) “Dollar Limitation” means \$160,000 (subject to the annual adjustments provided under Section 415(d) of the IRC). Said amount shall be adjusted based on the age of the Member when benefits begin, as follows:

(i) Except with respect to a Member who is a “Qualified Participant” as defined in Section 415(b)(2)(H) of the Code, for benefits (except survivor and disability benefits as defined in Section 415(b)(2)(I) of the Code) beginning before age 62 the Age-Adjusted Dollar Limitation is equal to the lesser of--

(I) the actuarial equivalent of the annual amount of a straight life annuity commencing at the annuity starting date that has the same actuarial present value as a deferred straight life annuity commencing at age 62, where annual payments under the straight life annuity commencing at age 62 are equal to the Dollar Limitation (as adjusted pursuant to section 415(d) for the limitation year), and where the actuarially equivalent straight life annuity is computed using a 5 percent interest rate and the applicable mortality table under §1.417(e)-1(d)(2) that is effective for that annuity starting date (and expressing the Member’s age based on completed calendar months as of the annuity starting date); and

(II) the Dollar Limitation (as adjusted pursuant to section 415(d)) multiplied by the ratio of the annual amount of the straight life annuity under the plan to the annual amount of the straight life annuity under the plan commencing at age 62, with both annual amounts determined without applying the rules of section 415.

amounts determined without applying the rules of section 415.

(ii) For benefits beginning after the age of 65, the age-adjusted Dollar Limitation is equal to the lesser of:

(I) the actuarial equivalent of the annual amount of a straight life annuity commencing at the annuity starting date that has the same actuarial present value as a straight life annuity commencing at age 65, where annual payments under the straight life annuity commencing at age 65 are equal to the dollar limitation of section 415(b)(1)(A) (as adjusted pursuant to section 415(d) for the limitation year), and where the actuarially equivalent straight life annuity is computed using a 5 percent interest rate and the applicable mortality table under §1.417(e)-1(d)(2) that is effective for that annuity starting date (and expressing the Member's age based on completed calendar months as of the annuity starting date); or

(II) the section 415(b)(1)(A) Dollar limitation (as adjusted pursuant to section 415(d) and §1.415(d)-1 for the limitation year) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the plan to the adjusted age 65 straight life annuity. The adjusted immediately commencing straight life annuity means the annual amount of the immediately commencing straight life annuity payable to the Member, computed disregarding the Member's accruals after age 65 but including actuarial adjustments even if those actuarial adjustments are applied to offset accruals. For this purpose, the annual amount of the immediately commencing straight life annuity is determined without applying the rules of section 415. The adjusted age 65 straight life annuity means the annual amount of the straight life annuity that would be payable under the plan to a hypothetical

receiving the distribution (determined disregarding the Member's accruals after age 65 and without applying the rules of section 415).

(iii) There shall be no age adjustment of the Dollar Limitation with respect to benefits beginning between the ages of 62 and 65.

(2) The limitations set forth in this Subsection 6.08(a) shall not apply if the Annual Pension does not exceed \$10,000 provided the Member has never participated in a Defined Contribution Plan maintained by the City.

(3) Cost-of-living adjustments in the Dollar Limitation for benefits shall be limited to scheduled annual increases determined by the Secretary of the Treasury under Section Subsection 415(d) of the Code.

(4) In the case of a Member who has fewer than 10 years of participation in the Plan, the Dollar Limitation set forth in Paragraph (1)(B) of this Subsection (a) shall be multiplied by a fraction - (i) the numerator of which is the number of years (or part thereof) of participation in the Plan, and (ii) the denominator of which is 10.

(5) Any portion of a Member's benefit that is attributable to mandatory employee contributions (unless picked-up by the City) or rollover contributions, shall be taken into account in the manner prescribed in the regulations under Section 415 of the Code.

(6) Should any Member participate in more than one defined benefit plan maintained by the City, in any case in which the Member's benefits under all such defined benefit plans (determined as of the same age) would exceed the Dollar Limitation applicable at that age, the accrual of the Member's benefit under this Plan shall be reduced so that the Member's combined benefits will equal the Dollar Limitation.

(7) For a Member who has or will have distributions commencing at more than one annuity starting date, the Annual Benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Section as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new

starting date has occurred shall be made without regard to § 1.401(a)-20, Q&A 10(d), and with regard to § 1.415(b)1(b)(1)(iii)(B) and (C) of the Income Tax Regulations.

(8) The determination of the Annual Pension under Paragraph (a)(1) of this Subsection 6.08(a) shall take into account (in the manner prescribed by the regulations under Section 415 of the Code) social security supplements described in § 411(a)(9) of the Internal Revenue Code and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant § 1.411(d)-4, Q&A-3(c) of the Income Tax Regulations.

(9) The above limitations are intended to comply with the provisions of Section 415 of the Code, as amended, so that the maximum benefits provided by plans of the City shall be exactly equal to the maximum amounts allowed under Section 415 of the Code and regulations thereunder. If there is any discrepancy between the provisions of this Subsection 6.08(a) of the Plan and the provisions of Section 415 of the Code and regulations thereunder, such discrepancy shall be resolved in such a way as to give full effect to the provisions of Section 415 of the Code. The value of any benefits forfeited as a result of the application of this Subsection 6.08(a) shall be used to decrease future employer contributions.

(b) Required Beginning Date:

Notwithstanding any other provision of the Plan, payment of a Member's retirement benefits under the Plan shall commence not later than the Member's Required Beginning Date, which is defined as the later of:

-April 1 of the calendar year that next follows the calendar year in which the Member attains or will attain the age of 70½ years; or

-April 1 of the calendar year that next follows the calendar year in which the Member retires.

(c) Required Minimum Distributions.

(1) Required Beginning Date. The Member's entire interest will be distributed, or begin to be distributed, to the Member no later than the

Member's Required Beginning Date as defined in Subsection (b) of this Section 6.08.

(2) Death of Member Before Distributions Begin.

(A) If the Member dies before distributions begin, the Member's entire interest will be distributed, or begin to be distributed, no later than as follows:

(i) If the Member's surviving spouse is the Member's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Member died, or by December 31 of the calendar year in which the Member would have attained age 70½, if later.

(ii) If the Member's surviving spouse is not the Member's sole designated beneficiary, then distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Member died.

(iii) If there is no designated beneficiary as of September 30 of the year following the year of the Member's death, the Member's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Member's death.

(B) The Member's entire interest shall be distributed as follows:

(i) Member Survived by Designated Beneficiary. If the Member dies before the date distribution of his or her interest begins and there is a designated beneficiary, the Member's entire interest will be distributed, beginning no later than the time described in Subparagraph (2)(A) above, over the life of the designated beneficiary or over a period certain not exceeding:

(I) unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the Member's death; or

(II) if the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

(ii) No Designated Beneficiary. If the Member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the Member's death, distribution of the Member's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Member's death.

(C) Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. In any case in which (i) the Member dies before the date distribution of his or her interest begins, (ii) the Member's surviving spouse is the Member's sole designated beneficiary, and (iii) the surviving spouse dies before distributions to the surviving spouse begin, Subparagraphs (2)(A) and 2(B) above shall apply as though the surviving spouse were the Member.

(3) Requirements For Annuity Distributions That Commence During Member's Lifetime.

(A) Joint Life Annuities Where the Beneficiary Is Not the Member's Spouse. If the Member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Member and a nonspousal beneficiary, annuity payments to be made on or after the Member's Required Beginning Date to the designated beneficiary after the Member's death must not at any time exceed the applicable percentage of the annuity payment for

such period that would have been payable to the Member using the table set forth in Q&A-2 of Section 1.401(a)(9)-6T of the Treasury regulations. If the form of distribution combines a joint and survivor annuity for the joint lives of the Member and a nonspousal beneficiary and a period certain annuity, the requirement in the preceding sentence will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

(B) Period Certain Annuities. Unless the Member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Member's lifetime may not exceed the applicable distribution period for the Member under the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9 of the Treasury regulations for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the Member reaches age 70, the applicable distribution period for the Member is the distribution period for age 70 under the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9 of the Treasury regulations plus the excess of 70 over the age of the Member as of the Member's birthday in the year that contains the annuity starting date. If the Member's spouse is the Member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Member's applicable distribution period, as determined under this Subparagraph (3)(B), or the joint life and last survivor expectancy of the Member and the Member's spouse as determined under the Joint and Last Survivor Table set forth in Section 1.401(a)(9)-9 of the Treasury regulations, using the Member's and spouse's attained ages as of the Member's and spouse's birthdays in the calendar year that contains the annuity starting date.

(4) Form of Distribution. Unless the Member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Required Beginning Date, as of the first distribution calendar year distributions will be made in accordance with Subparagraphs (4)(A), (4)(B) and (4)(C) below. If the Member's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the

requirements of Section 401(a)(9) of the Code and the Treasury regulations. Any part of the Member's interest which is in the form of an individual account described in Section 414(k) of the Code will be distributed in a manner satisfying the requirements of Section 401(a)(9) of the Code and the Treasury regulations that apply to individual accounts.

(A) General Annuity Requirements. If the Member's interest is paid in the form of annuity distributions under the Plan, payments under the annuity will satisfy the following requirements:

(i) the annuity distributions will be paid in periodic payments made at intervals not longer than one year;

(ii) the distribution period will be over a life (or lives) or over a period certain, not longer than the distribution period described in Paragraphs 2 or 3 above, whichever is applicable, of this Subsection (c);

(iii) once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted;

(iv) payments will either be non-increasing or increase only as follows:

(I) by an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the Bureau of Labor Statistics;

(II) to the extent of the reduction in the amount of the Member's payments to provide for a survivor benefit upon death, but only if the beneficiary whose life was being used to determine the distribution period dies or is no longer the Member's beneficiary pursuant to a qualified domestic relations order within the meaning of Section 414(p) of the Code;

(III) to provide cash refunds of employee contributions upon the Member's death; or

(IV) to pay increased benefits that result from a Plan amendment.

(B) Amount Required to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Member's Required Beginning Date (or, if the Member dies before distributions begin, the date distributions are required to begin under Subparagraph (2)(A)(i) or (2)(A)(ii), whichever is applicable) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, e.g., bi-monthly, monthly, semi-annually, or annually. All of the Member's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Member's Required Beginning Date.

(C) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Member in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues.

(5) For purposes of this Subsection (c), distributions are considered to begin on the Member's Required Beginning Date. If annuity payments irrevocably commence to the Member (or to the Member's Surviving Spouse) before the Member's Required Beginning Date (or, if to the Member's Surviving Spouse, before the date distributions are required to begin in accordance with Subparagraph (2)(A) above), the date distributions are considered to begin is the date distributions actually commence.

(6) Definitions.

(A) Designated beneficiary. The individual who is designated as the beneficiary under the Plan and is the designated beneficiary under Section 401(a)(9) of the Code and Section 1.401(a)(9)-1, Q&A-4, of the Treasury regulations.

**ORDINANCE NO. 2011-7**

(B) Distribution calendar year. A calendar year for which a minimum distribution is required. For distributions beginning before the Member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Member's Required Beginning Date. For distributions beginning after the Member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to Paragraph (2) of this Subsection (c).

(C) Life expectancy. Life expectancy as computed by use of the Single Life Table in Section 1.401(a)(9)-9 of the Treasury regulations.

(d) (1) Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the Administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(2) Definitions

The following definitions apply to this Section:

(A) Eligible rollover distribution: An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

(i) any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more;

(ii) any distribution to the extent such distribution is required under Section 401(a)(9) of the Code;

(iii) the portion of any distribution that is a hardship distribution described in Section 401(k)(2)(B)(i)(IV) of the Code; and

(iv) the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities), provided that a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax Employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

(3) Eligible retirement plan: An eligible retirement plan is an individual retirement account described in Section 408(a) of the Code, an individual retirement annuity described in Section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, an annuity contract described in Section 403(b) of the Code, a qualified trust described in Section 401 (a) of the Code, an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan, or, with respect to distributions on or after January 1, 2008, a Roth IRA (subject to the limitations of Code Section 408A(c)(3)) that accepts the distributee's eligible rollover distribution.

(4) Distributee: A distributee includes an Employee or former Employee. In addition, the Employee's or former Employee's surviving spouse and the Employee's or former Employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse. Furthermore, effective January 1, 2007, a surviving designated beneficiary as defined in Section 401(a)(9)(E) of the Code who is not the surviving spouse and who elects a direct rollover to an individual retirement account described in Section 408(a) of the Code or an individual retirement annuity described in Section 408(b) of the Code shall be considered a distributee.

(5) Direct rollover: A direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee.

(e) Notwithstanding any other provision of this Plan, the maximum amount of any mandatory distribution, as defined in Section 401(a)(31) of the Code, payable under the Plan shall be \$1000.

(f) Compensation Limitations Under 401(a)(17):

In addition to other applicable limitations set forth in the Plan, and notwithstanding any other provision of the Plan to the contrary, the annual compensation of each Member taken into account under the Plan shall not exceed the EGTRRA annual compensation limit for limitation years beginning after December 31, 2001. The EGTRRA annual compensation limit is \$200,000, as adjusted by the Commissioner for increases in the cost of living in accordance with Section 401(a)(17)(B) of the Code. The cost-of-living adjustment in effect for a calendar year applies to any period, not exceeding 12 months, over which Compensation is determined (determination period) beginning in such calendar year. If a determination period consists of fewer than 12 months, the EGTRRA annual compensation limit will be multiplied by a fraction, the numerator of which is the number of months in the determination period, and the denominator of which is 12.

Any reference in the Plan to the limitation under Section 401 (a)(17) of the Code shall mean the EGTRRA annual compensation limit set forth in this provision.

**Section 5.** Section 6.11, Election for Direct Rollover of Eligible Distributions Required by Internal Revenue Service, of the Retirement Plan for General Employees of the City of North Miami Beach is hereby repealed in its entirety and reserved for future use. All references to Section 6.11 shall be amended to refer to Section 6.08.
