The above list includes the main portions of the house. However, do not forget other areas, such as the closets, basement, attic, garage, porch/patio, work room and shed. When checking these areas, be sure to check all items stored in these areas. It is also a good idea to photograph your valuables. Pictures add details to your inventory that written document cannot.

Once you have completed your home inventory, compare the estimated value of your items to the amount of insurance coverage you currently have. Be sure to check with your insurance company or agent to determine your available coverage and what, if any, additional coverage you may need. For more information, visit the Department's Web site at <a href="https://www.fldoi.com">www.fldoi.com</a>.

## **Protecting Your Home**

With hurricane season upon us, it is important to be prepared in case a storm hits your area. Each year in Florida, hurricanes account for millions of dollars worth of damages and relief assistance. That is why the Department recommends consumers conduct a room-by-room home inventory. Doing this will make it easier to file an accurate claim in the event of a loss. To get started, just use the checklist below (you may need additional paper), making sure to provide the year of purchase, price, and brand name.
