Revised October 1, 2014 Actuarial Valuation

Ladies and Gentlemen:

This report presents the revised results of the actuarial valuation of the Retirement Plan ("Plan") for Police Officers & Firefighters of the City of North Miami Beach as of October 1, 2014. This report was revised to reflect updated member data that was provided by the pension office and reviewed by the City. Further details regarding the changes to the asset information and member data are provided below.

The purpose of this report is to provide a summary of the funded status of the plan as of October 1, 2014, to determine the minimum required contribution amount for the fiscal year ending September 30, 2016, and to satisfy State reporting requirements. In addition, this report provides a record of any plan amendments or other plan changes affecting the financial status of the Plan. Use of this report for any other purpose may not be appropriate and may result in mistaken conclusions due to failure to understand applicable assumptions, methodologies, or inapplicability of the report for that purpose. Because of the risk of misinterpretation of actuarial results, you should ask Buck to review any statement you wish to make on the results contained in this report. Buck will not accept any liability for any such statement made without prior review.

Summary of Valuation Results

Currently, the Plan receives contributions from the City of North Miami Beach, the State of Florida through Chapter 175/185 and active members. In addition, a City contribution of \$750,000 is required by Ordinance 2010-22 in order to reach a 70% funding level by October 1, 2020. The dollar amount of the City's contribution requirement for the 2015/2016 fiscal year is \$5,686,971 before reflecting the additional contribution required by Ordinance 2010-22 and \$6,436,971 after reflecting the additional requirement. For comparative purposes, the required City contribution for the 2014/2015 fiscal year was \$5,642,645 before reflecting the additional contribution required by Ordinance 2010-22 and \$6,392,645 after reflecting the additional requirement.

The City contribution of \$6,436,971 assumes payments are made monthly. If contributions are made on a quarterly basis, the City contribution requirement is \$6,381,221. The decrease in contribution reflects interest on payments being made earlier into the Plan's assets.

Changes in Actuarial Assumptions Methods and Plan Provisions

This report also provides a record of changes in actuarial assumptions and methods as well as plan amendments or other plan changes affecting the financial status of the System.

Changes in Methods/Assumptions

There have been no changes in assumptions since the prior valuation. The assumptions are outlined in Table XI. These assumptions were based on an experience study performed by Bolton Partners, Inc. except for the following:

- The mortality table used for healthy lives was updated from the RP-2000 Combined Healthy Mortality Table Blended 85% male and 15% female with no adjustment for future mortality improvements to the Fully Generational RP-2000 Combined Healthy Mortality Table for Males and Females with Blue Collar Adjustment with mortality improvements based on Scale AA.
- The assumption regarding DROP membership was updated to reflect updated DROP experience. 80% of eligible active member retirements are assumed to join the DROP, with the remaining 20% retiring without utilizing the DROP.
- A payroll growth assumption of 3.0% was adopted based on the City's expectation for future payroll growth. This compares to the 10-year growth in average payroll of 1.46%. We believe a 3.0% payroll growth assumption is reasonable and consistent with future City expectations given the following facts and circumstances.
 - DROP members now compose 26% of the active police force and current DROP members average 4 years of participation as compared to the maximum 8 years of participation allowed under the Plan. As a result, active membership payroll is expected to increase over the next several years as DROP members retire and new police officers are hired and become active members of the Plan.
 - A reduction of 10 police officers occurred in fiscal 2012, which contributed to the reduction in payroll. Future payroll is expected to normalize as the City does not anticipate continued reductions in the active police force. In fiscal 2014, 8 officers became active members of the plan.
 - Salary declines that occurred in recent years are expected to normalize.

There have been no method changes since the prior valuation. The methods used in the valuation are outlined in Table XI.

Changes in Plan Provisions

There have been no plan changes since the prior valuation. As directed by the Board of Trustees, this valuation does not reflect Ordinance 2013-20. A summary of the plan provisions can be found in Table XII.

Discussion of Valuation Results

The dollar amount of the total required contributions for fiscal year 2015/2016 is \$6,567,893 (101.21% of payroll) before reflecting the additional contribution required by Ordinance 2010-22. For comparative purposes, the total required contribution for the 2014/2015 fiscal year was \$6,413,245 (114.58% of payroll).

The contribution increased from the prior fiscal year. The main drivers for the change in the total contribution requirements are as follows:

- Overall contributions were expected to increase by \$192,000. This increase reflects level percent of payroll amortization of the unfunded actuarial accrued liability and the expected increase in the Plan's normal cost.
- A higher than expected increase in the Plan's normal cost resulting primarily from higher than expected salaries inclusive of overtime increased the fiscal 2016 contribution by \$167,000. Pensionable salary increased by 8.85% versus an expected increase of 5.64%.
- Gains resulting primarily from favorable investment experience partially offset by higher than expected salaries inclusive of overtime decreased the fiscal 2016 contribution by \$207,000. The rate of return on the Actuarial Value of Asset during the 2013/2014 fiscal year was 10.68%, compared to the assumed return of 8.0%.

After taking into account expected member contributions of \$720,315 (11.1% of payroll) and expected State contributions of \$326,247 (5.03% of payroll), the City's contribution requirement is \$5,521,331 (85.08% of payroll) before reflecting the \$750,000 additional contribution required by Ordinance 2010-22. This compares to \$5,478,296 (97.88% of payroll) required for the prior fiscal year.

Financial and Member Data

The member data used was updated as of October 1, 2014 by the City pension administration office, adjusted and approved by the City and provided to us on January 12, 2016. In particular, the pensionable earnings were revised to include all overtime earnings worked by police officers during fiscal 2014. Buck did not audit this data, although it was reviewed for reasonableness and consistency with the prior year's information as well as information supplied previously. The results of this report are dependent on the accuracy of the member data. The financial data was supplied by the City of North Miami Beach. The Market Value of Assets was adjusted to include a receivable contribution equal to 11.1% of overtime earnings not included in the original census data. The results of the valuation are dependent on the accuracy of the financial data. Tables IX through IXd provide a summary of the data used in the valuation.

Contents of the Report

A summary of the results of the valuation is presented in Table I. Information for the auditors can be found in Tables III. The disclosure information required by Chapter 112, Florida Statutes, is presented in Table IV-V. Tables VI through VIII provide information about the fund's assets. Tables VIIa-VIII provides a historical record of the growth, expenditures, and annual returns of the Plan. Tables IX through IXd provide information regarding the participant population.

Certification

This actuarial valuation was prepared under our direct supervision and we acknowledge responsibility for the results. To the best of our knowledge, the results are complete and accurate and, in our opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends which may require a material increase in plan costs or required contribution rates have been taken into account in the valuation.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such differences. As directed by the Board of Trustees, this valuation does not reflect Ordinance 2013-20. Results reflecting the plan provisions as outlined in Ordinance 2013-20 may vary significantly from the results presented herein.

This valuation was prepared in accordance with the standards of practice prescribed by the Actuarial Standards Board, based on the current provisions of the Retirement Plan and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the Plan. We are members of the American Academy of Actuaries and meet the Academy's qualification standards to issue this Statement of Actuarial opinion. We are available to answer questions regarding any of the content within this report.

a. Expected Outstanding Obligations as of October 1, 2014	\$	46,647,917
b. Assumption Changes		0
c. Plan Amendments		0
d. Experience (Gain)/Loss		(2,219,989)
e. (Gain)/Loss due to Contribution Timing		(990,056)
f. Total Outstanding Obligations as of October 1, 2014	\$	43,437,872
7. Items Affecting Calculation of Accrued Liability		
a. Plan provisions reflected in the accrued liability (see Table XII on page 36)		
b. Changes in plan provisions reflected in the accrued liability in 4.c. above (see Table XII on page 36)		
c. Actuarial assumptions and methods used to determine accrued liability (see Table XI on page 33)		
d. Changes in actuarial assumptions and methods reflected in items 4.a. and 4.b. above (see Table XI on page 33)		

* The normal cost represents the employer portion only, net of actual employee contributions and including actual administrative and investment expenses.

** City and State Contributions of \$7,148,508 less State Contributions reserved for future benefit improvements of \$60,612 less one-time use of \$403,980 excess premium tax reserves (see Table VIc on page 21).

Gain and Loss Analysis (continued)

Table II

8. Expected Unfunded Accrued Liability Contribution Rate as of October 1, 2014	70.15%
9. Net Actuarial (Gains)/Losses During the 2013/2014 Plan Year	
a. Due to Salary/Service/Data	0.35%
b. Due to Investment Performance	(2.36%)
c. Due to Mortality	(0.30%)
d. Due to Turnover/Retirements	0.13%
e. Due to Difference and Timing in Contributions	(1.12%)
f. Due to New Members	0.00%
g. Total	(3.30%)
10. Change in Unfunded Accrued Liability Rate During the 2013/2014 Plan Year Due to:	
a. Decrease in payroll growth assumption	0.00%
b. Assumption changes	0.00%
c. Plan amendments	0.00%
d. Total Change	0.00%
11. Other Effects	(7.73%)
12. Unfunded Accrued Liability Contribution Rate as of October 1, 2014	59.12%
13. Comments on Change in Unfunded Accrued Liability Contribution Rate:	

Salary/Service/Data: Average pensionable salary increases of 8.85% compared to expected increases of 5.64%.

Investment Performance: 10.68% actual vs. 8.00% expected return on the actuarial value of assets.

Mortality: Net effect on the valuation liabilities of actual deaths different from what was anticipated in the aggregate by the assumptions.

Due to turnover/retirements: Net effect on valuation liabilities of actual terminations of employment, retirements (including DROP), and disabilities different from what was anticipated in the aggregate by the assumptions.

Due to Differences and Timing of Contributions: Due to the one year lag of when the required contribution is determined and when it is deposited into the Plan's assets.

Assumption changes: None.

Plan amendments: None.

Other effects: Overall payroll increases and adjustments in the amortization of the unfunded actuarial accrued liability.

Present Value of Accrued Benefits - Funding Interest Rate

2011	11.00%	53.10%	2016	11.10%	90.11%

Actuarial Assumptions and Methods

Table XI

Funding Method

The Entry Age Normal Cost method has been used to develop the funding requirements for the plan. The contribution equals the sum of the normal cost and the amount necessary to amortize the unfunded actuarial liabilities and any actuarial gains or losses over a period of 30 years for police and the average of expected future lifetime for firefighters. Amortization payments increase 3.0% annually. The normal cost includes estimated investment and administrative related expenses.

Actuarial Asset Method

The asset smoothing method spreads investment gains or losses in excess of the assumed return on the market value of assets over a 5-year period. The Actuarial Value of assets cannot be less than 80%, or greater than 120% of market value. The Actuarial Value of Assets are adjusted to exclude excess State premium tax monies reserved for future benefit improvements.

Valuation Rate/Investment Return Rate

8.0% compounded annually.

In selecting economic assumptions, the interest rate of 8 % is based upon a review of the existing portfolio structure, a review of recent experience, and information from the Board. The salary increase assumption is based on actual experience and future expectations of inflation, merit, and productivity components.

Administrative/Investment Expenses

The normal cost includes estimated administrative expenses equal to the 3-year average of prior administrative expenses plus estimated investment expenses equal to 0.50% of the market value of assets as of the valuation date.

COLA Increases

Benefits are assumed to increase by 2.5% of the current benefit each year for retired police members eligible for annual COLAs commencing 3 years after retirement or exit from the DROP. Retired firefighter benefits are not eligible for COLAs and are not increased in future years.

Salary Increases

Annual salary increase rates by years of service are shown below:

Years of Service	Rates of Increase
0 – 4	12.00%
5 – 9	6.00%
10 – 12	5.50%
13 – 19	4.00%
20+	3.00%

The salary increase assumption is based on actual experience and future expectations of inflation, merit, and productivity components.

Actuarial Assumptions and Methods (continued)

Table XI

Payroll Growth

Salary increases for total payroll are 3.0% per year.

Inflation

3.0% compounded annually.

Mortality

Healthy: Fully Generational RP-2000 Combined Healthy for Males and Females with Blue Collar adjustment and future mortality improvements based on Scale AA.

Disabled: RP-2000 for disabled retirees blended 15% female and 85% male.

In-Service Deaths

100% of active member deaths are assumed to occur in the line of duty.

Termination of Employment

Annual termination rates by years of service are shown below:

Years of Service	Rates of Termination
0 – 1	12.00%
1 – 5	6.00%
5+	0.50%

Retirement Rates

Retirement rates are based on age and service as follows:

Age	Years of Service		
	20	21 - 24	25
40	75%	75%	100%
41-51	75%	50%	100%
52	100%	100%	100%

80% of retirements are assumed to enter the DROP. Those entering the DROP are assumed to remain in the DROP for five years.

Current members of the DROP are assumed to remain in the DROP for the maximum allowable time (8 years).

Actuarial Assumptions and Methods (continued)

Table XI

Disability Rates

Triple the rates in the 1985 class (1) disability study rates. Rates are as follows:

<i>Disabilities per 10,000 members</i>			
Age	Disability	Age	Disability
20	9	37	26
21	9	38	29
22	10	39	32
23	10	40	35
24	11	41	39
25	11	42	44
26	12	43	49
27	13	44	55
28	13	45	61
29	14	46	68
30	14	47	77
31	15	48	86
32	16	49	96
33	17	50	107
34	19	51	122
35	21	52	140
36	23		

In-Service Disabilities

100% of active member disablements are assumed to occur in the line of duty.

Marital Status

100% of active members are assumed to be married with males 3 years older than females.

Changes Since Prior Valuation

There were no changes in assumptions since the prior valuation.

Plan Provisions

Table XII

Plan provisions do not reflect changes described in Ordinance 2013-20.

Eligibility Requirements

Full-time employment with the City as a sworn police officer or former firefighter. Participants enter the plan on the first day of employment or January 1, 1990 for any employee who was a participant in the Retirement Plan for Employees of the City of North Miami Beach (effective October 1, 1965).

Final Monthly Compensation (FMC)

Average monthly compensation from the City or County for the 60 consecutive months for police officers and 18 consecutive months for firefighters, out of 120 months which gives the highest average monthly rate of compensation for the participant.

Compensation means, as per the State Statute, the total cash remuneration paid to a police officer for services rendered.

Credited Service

Completed calendar months, from the date of employment until the first day of the month coincident with or next following a participant's date of retirement or termination.

NORMAL RETIREMENT

Normal Form of Benefit

Life Annuity for at least a 10 year period.

Normal Retirement Date

First of the month coincident with or immediately following the earliest of:

- (a) Attainment of age 52
- (b) For police: 20 years of service
For firefighters: 22 years of service

Normal Retirement Benefit

For Police: 3% of final monthly compensation multiplied by years of credited service.

For Firefighters: 3.3% of final monthly compensation multiplied by years of credited service.

Maximum Benefit: 100% of average final compensation, for members who entered the plan after 1979.

Plan Provisions (continued)

Table XII

COLA

For Police: COLA increase is 2.50% per year and is payable annually (on October 1st) to any retiree or beneficiary who has been retired for at least 3 years, and has retired on or after December 30, 1988, or retired under the Early Retirement Incentive.

For Firefighters: In lieu of the cost of living adjustments previously provided, a lump sum will be paid to all firefighter retirees and pensioners alive as of each October 1st prior to the payment of this benefit. The amount is based upon the undistributed premium tax income received during the previous calendar year, or if the payment of a year's premium tax income is delayed until after December 31st of that year then payment of the supplemental retirement benefit shall be paid within 90 days after receipt.

EARLY RETIREMENT

Normal Form of Benefit

Life Annuity for at least a 10 year period.

Early Retirement Date

The earlier of age 45 with 15 years of service, or the attainment of age 50 with 10 years of service.

Early Retirement Benefit

Normal retirement benefit reduced 3% each year the employee's age at early retirement precedes their age at normal retirement.

COLA

COLA increase is 2.50% per year and is payable annually (on October 1st) to any police officer who retired on or after December 30, 1998 and who has been retired for at least 3 years, attained age 52, and completed 20 or more years of credited service. Surviving beneficiaries receive a COLA on the same date the participant would have become eligible.

Plan Provisions (continued)

Table XII

DEFERRED RETIREMENT OPTION PROVISIONS (DROP)

Normal Form of DROP Account

Lump Sum

Normal Form of DROP Benefit

Life Annuity for at least a 10 year period.

DROP Retirement Date

The earlier of age 52 with 15 years of service or the attainment of 20 years of service.

Maximum DROP Period

Eight years.

Interest Rate Credited to DROP Account

Valuation Interest Rate

DROP Benefit

Same as normal retirement benefit with FMC and service determined at entry in DROP.

COLA

COLA increase is 2.50% per year and is payable annually (on October 1st) to any police officer who has terminated active service and has been collecting benefits for at least 3 years.

DISABILITY RETIREMENT

Normal Form of Benefit

Life Annuity

Disability Retirement Date

Total and permanent disability

Disability Retirement

The greater of 60% of FMC, or the participants accrued benefit at date of disability.

COLA

COLA increase is 2.50% per year and is payable annually (on October 1st) to any police officer who retired on or after December 30, 1998 and who has been retired for at least 3 years and attained age 52.

Plan Provisions (continued)

Table XII

Death Benefit

In the event that the death of a disabled participant occurs after date of disability but prior to normal retirement date, the beneficiary will receive the actuarial equivalent of the greater of (A) and (B) below:

- (A) The value of the deferred monthly benefit commencing at normal retirement that the member would have accrued if they remained in active service from date of disability to date of death.
- (B) The smaller of:
 - a. 24 times FMC immediately preceding disability
 - b. 100 times the participant's anticipated monthly retirement benefit commencing on normal retirement that would have been payable if the participant had remained in service at the same rate of pay from date of disablement to date of death.

This benefit is paid as a Life Annuity and is guaranteed for at least a 10 year period.

DEATH BENEFIT

Normal Form of Benefit

Life Annuity for at least a 10 year period.

Death Benefit

The monthly retirement income payable upon the death of a participant who is survived by a spouse and/or dependent is the actuarial equivalent of the greater of (A) and (B) below:

- (A) The single-sum value of the accrued deferred benefit commencing on Normal Retirement Date, accrued to date of death.
- (B) The smaller of:
 - a. 24 times the monthly pay on October 1 preceding the participants date of death
 - b. 100 times the anticipated monthly retirement income commencing on Normal Retirement Date.

COLA

None.

Plan Provisions (continued)

Table XII

WITHDRAWAL BENEFIT – LESS THAN 10 YEARS OF SERVICE

Form of Benefit

Lump Sum, payable immediately.

Withdrawal Date

First day of service, up to 10 years of credited service.

Termination Benefits

Accumulated Employee Contributions with 3% interest.

WITHDRAWAL BENEFIT – MORE THAN 10 AND LESS THAN 20 YEARS OF SERVICE

Form of Benefit

Lump Sum paid immediately or Life Annuity for at least a 10 year period, payable at age 52.

Withdrawal Date

At least 10 years of credited service, but less than 20 years of credited service.

Termination Benefits

The greater of:

- (A) Same as normal retirement benefit with FMC and service determined at date of termination.
- (B) Accumulated Employee Contributions with 3% interest.

EMPLOYEE CONTRIBUTIONS

Employee Contributions

Participants contribute to the plan:

11.1% of Compensation (pre-tax) for police officers.

- Ordinance 2005-6 stated in the event that the additional tax revenues provided under Section 185 of Florida statutes are insufficient to fund the service related death benefit created by Ordinance 2005-6, employee contributions will increase from 10.5% to 11.1% of payroll, unless changed through collective bargaining.
- Interest credited at 3% per year.

Changes Since Prior Valuation

There were no changes in plan provisions since the prior valuation.
